

Multi-Branch INDUSTRY SPECIALIST

A RETAIL & INDUSTRIAL LEADER

*Servicing a state-wide retail and industrial client base, this unique opportunity will instantly position you at the heart of a well-established multi-branch industry leader generating **\$4 million** in annual turnover and featuring significant growth opportunities moving forward.*

Servicing the general retail automotive market and more specialised earthmoving and mining industries, the business' core operation is the design, supply and installation of glass and windscreens for a wide range vehicles – from cars and buses through to heavy earthmoving and mining equipment.

Its main workshop and administration centre is located in a major north Queensland coastal city while its other two regional workshops are positioned in key towns of north and central Queensland. The combination of all three gives the business excellent coverage of the central and north regions as well as some of Australia's most highly productive mining areas.

The location of its workshops has been pivotal in the business' success – allowing it to respond quickly and effectively to the demands of nearby mines and mining contractors. Situated only a short distance from one of its regional workshops is a residential property which includes 3-bedrooms and a self-contained unit.

With its unique production capabilities and superior coverage of central and north Queensland the business has become one of the leading operators of its kind to service the region.

THE BUSINESS' WELL-ESTABLISHED INDUSTRY LINKS AND SECURE SUPPLY NETWORK HAVE BEEN PIVOTAL IN ITS ONGOING SUCCESS AND HAS SEEN IT CULTIVATE A CLIENT BASE WHICH INCLUDES SOME OF AUSTRALIA'S LARGEST MULTINATIONAL MINING AND EARTHMOVING COMPANIES.

Strong regional growth within its core service will provide a solid platform for the future of the business. North Queensland continues to benefit from the enduring mining and resources boom, sustaining solid commercial, manufacturing and population growth which the business is ideally placed to capitalise on.
